

- Vertical mast
- Maximum height 8m
- Galvanized telescopic section
- 4 adjustable stabilizers
- Manual lifting system with winch complete of auto-braking system
- Mast rotatable to 340°
- Certified wind stability up to 80Km/h
- Electrical coiled cable complete with housing
- On/Off switch for each lamp
- 4 floodlights 1000W metal halide
- Fork lift Pockets
- Structure assembled on site-tow trailer, single axle
- 75 litres metal fuel tank
- More than 30 hours of running time
- 4 side lifting hooks
- Lockable doors
- Digital hour counter
- Series of alarms to protect the engine
- 9KVA super silent generating set 90Lwa- Lombardini Focs LDW1003, diesel engine
- 3KVA - 230V - 16A outlet with circuit breaker protection

**Features**

Rotation	340°
Floodlights	4x1000W Metal Halide

**Performances**

3.800m<sup>2</sup> – 20Lux average illuminated area  
360.000 total lumen

**Options**

Available with Kubota engine D1105

**Quantity per container**

14 pieces in a 40 feet container

**Generator**

Type	Synchronous
Frequency	50 or 60Hz
Degree of protection	IP23
Power	9KVA single phase

**Engine**

Model	Lombardini Focs LDW1003 3 cylinders – 1028cm <sup>3</sup>
Cooling	Water
Fuel	Diesel
R.p.m.	1500(50Hz) or 1800(60Hz)
