# FRD DEMOLITION AND SORTING GRAB

## FRD DEMOLITION AND SORTING GRAB - FDG SERIES -

Diverse usable grab for various applications and handling of various materials such as::

- Demolition / demolition sorting
- Sorting of construction waste
- Loading and sorting of recycled material

FDG05-PL - FDG30-PL

# FDG SERIE

**SMALL SERIES**

FDG05-PL FDG10-PL FDG15-PL FDG20-PL FDG30-PL

- Compact hydraulic rotator unit with heavy duty axial and radial bearings.
- Flat compact design
- A box frame protects the hydraulic cylinders and synchronizing links.
- The cylinders include a limit damper
- From FDG10-PL: load-holding valves on the cylinders prevent accidental opening of the grab
- Mechanical stop for opening and closing
- Shells made of high strength steel (400 HB)
- Bolted exchangeable cutting blades made of high strength steel (400 HB)
- Grabs available in a swinging version

**LARGE SERIES**

FDG35-PL FDG40-PL FDG50-PL FDG60-PL

- Hydraulic rotation with high load-bearing axial and radial bearings with circle drive.
- Flat compact design
- A box frame protects the hydraulic cylinders and synchronizing links.
- The cylinders include a limit damper
- Load holding valves on the cylinders prevent accidental opening of the grab
- Mechanical stop for opening and closing
- Shells made of high strength steel (400 HB)
- Bolted exchangeable cutting blades made of high strength steel (400 HB)
- Grabs available in a swinging version
